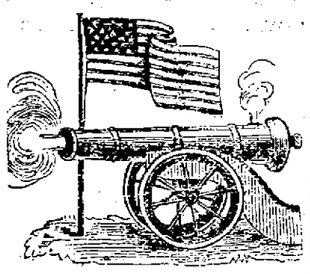
WEDNESDAY MORNING, NOV. 7, 1860.



THE GRAND RESUTL!

Lincoln and Liberty!

THE UNION SAFE AND REPUBLICANISM TRIUMPHANT!

"BEHOLD HOW BRIGHTLY BREAKS THE MORNING!"

Yesterday the People of the United States voted for their Chief Magistrate for the ensuing four years, and this morning, thanks be to God, we are enabled to announce that ABRAHAM LINCOLN, of Illinois, is the elect of the People. We have no space, nor time, to enter upon details. These will be found in our columns of telegraphic dispatches. Suffice it to say that

NEW YORK has given 50,000 majority for LINCOLN.

PENNSYLVANIA 50,000 ditto.

OHIO 35,000 the same way.

MICHIGAN, ILLINOIS, INDIANA and WISCONSIN about 20,000 apiece.

Every FREE STATE heard from votes for LINCOLN and LIBERTY. Even in the Slave States they have made a glorious run. ST. LOUIS, BALTIMORE, WHEELING, WILMINGTON and other Southern cities have given us noble votes.

Mr. BELL divides with Mr. BRECKINRIDGE the Southern vote. Mr. DOUGLAS, as far as heard from, has only the chance of carrying the single State of Missouri.

Look at Wisconsin!

Fifteen thousand majority and upwards for LINCOLN.

All three Republican members of Congress.

A large Republican majority in the State Legislature *which is to* elect a U. S. Senator.

What more *could* WISCONSIN do to prove her steadfast devotion to REPUBLICAN principles?

JNO. F. POTTER RE-ELECTED!

It affords us infinite pleasure to state that our gallant Representative, JOHN F. POTTER, has been re-elected to Congress by upwards of *two thousand* majority, over the strongest candidate that could be put up against him. Look at the figures!

The Second District.

The majorities for LINCOLN and our Congressman, HANCHETT, in the Second District, exceed belief. We should like to compare the Republican figures in that District with any other in the United States.

THE THIRD DISTRICT REDEEMED.

All the returns from the Third District warrant the belief that the Republican candidate, A. SCOTT SLOAN; has beaten his competitor, C. H. LARRABEE, by a most decisive majority. All Hail to the Third District!

Milwaukee County.

The following are the majorities in the several towns and wards of this county:

WARD.	
First Ward—124 majority for Douglas.	
Second Ward—260	" "
Third Ward—211	" "
Fourth Ward—30	" for Lincoln.
Fifth Ward—98	" "
Sixth Ward—79	" for Douglas.
Seventh Ward—46	" for Lincoln.
Eighth Ward—67	" "
Ninth Ward—318	" for Douglas.

City 901 majority for DOUGLAS, against 1,287 for BUCHANAN in 1856.

TOWNS.	
Granville—	151 Douglas.
Lake—	95 "
Wauwatosa—104	" "
Franklin—	139 "
Oak Creek—	95 "
Milwaukee—	170 "
Greenfield—	190 "
	907 majority.

Majority in the city and county for DOUGLAS 1,808, against 4,419 for BUCHANAN in 1856.

Glory enough for one day!

The Crisis Passed.

The election is over and the country is safe. Most of our readers are doubtless sick of politics, and we take pleasure in assuring them that the books are closed and the account being rapidly closed up. The returns received are yet meagre, but enough is known to assure us that the country is safe.

We shall now be able to present our readers with our usual amount of news and miscellany.

MILWAUKEE COUNTY.—The Democrats, by the help of money, have secured their County ticket. The Republicans elect two Assemblymen, CAVERNO in the Fourth and RUGER in the Fifth Districts. One more pull, boys, and the day is ours!

THE *Presbyterian Herald* states that the Rev. JAMES H. BARKS, pastor of the Second Presbyterian Church, St. Louis, Missouri, a few days since, baptised and received into his church the Rev. CHARLES CHARTIN, a Roman Catholic priest, of the order of Lazarist, and a native of France. Mr. CHARTIN has commenced study for the ministry in the Presbyterian Church.

PERSONAL.—Senator SEWARD arrived in New York on Thursday last. He was received at the Harlem railroad depot, corner of Twenty-seventh street and Fourth avenue, by Messrs. JAMES KELLY, ALEXANDER MCLEOD, DANIEL CONOVER and General WARD, and was by a detachment of the Wide Awakes escorted to the Astor House.

HERE IS A BIT of silver lining for that dark cloud, the New Mexican Slave Code. Judge KEITHLEY, who introduced a bill at the last session of the New Mexican Legislature for the repeal of slavery, has been re-elected to that body without opposition.

THE Oxford *Express* says that on Tuesday last, about ten miles north of that village a man by the name of McMillen fell from his wagon, was run over and had three of his ribs broken.

Blair county, Snyder township gives Lincoln's maj 120—the same as Curtin.

Hollidaysburg, Lincoln's maj 33; Republican gain of 72.

Lancaster county gives Lincoln 86 maj; Foster had 276 maj.

Columbia, Lincoln 159 maj; Curtin had 64 maj.

Centre Co., Bellefonte Lincoln 200 maj; over all, a gain of 62.

Columbia Co., Bloomsburg Lincoln 200 maj, a gain of 27.

Lancaster Co. 8,000 maj for Lincoln.

Huntington Co., 1,500 maj for Lincoln.

Alleghany Co. gives 10,000 maj for Lincoln. Lincoln, in 20 districts in Alleghany Co. gains 1,554 over Curtin.

Pittsburg complete, 245 Rep maj.

Alleghany city, Rep maj of 1875. Increased in 31 Districts heard from 2300 over October.

Philadelphia—2d ward, Lincoln's plurality over the Reading ticket. 317; 5th ward, Reading over Lincoln, 4, 6th ward, Lincoln over Reading, 350; 12th ward, Lincoln over Reading 560; returns show a considerable decrease from October. Lincoln has majorities in all but one ward—the 12th. 1st ward, Lincoln over Reading, 99; 4th ward, Lincoln over Douglas, 71; 14th ward, Lincoln over Reading, 336; 16th ward, Lincoln over Reading 546; 20th ward, Lincoln over Reading, 1,062 These returns indicate Lincoln's plurality in the city at 10,000 or 12,000.

Union Centre county Lincoln's majority 700.

Luzerne county, Lincoln 500 maj.

Northampton county, Reading ticket, 1000 majority.

York county, Lincoln majority.

Chester county, nine districts show gain for Lincoln of 900. The indications are that Lincoln will have a majority of 2000 in the county.

Fulton county, Reading ticket, 150 maj; a Democratic gain of 29 over the vote of Foster.

Harrisburg, Lincoln 129 over Reading ticket; Foster's majority 184.

Dauphin county, 1600 majority for Lincoln.

Lincoln will have a majority, in Westmoreland county, of about 200.

Philadelphia city, complete, Lincoln's maj. over all 873; over the Reading and Douglas ticket, 7,791; over the Reading ticket alone, 17,584.

Ohio.

TOLEDO CITY, Nov. 6—9 P. M.

Toledo gives 508 majority for Lincoln.—Republican gain of 400 over October election.

Huron county.—All but 3 townships give Lincoln 1995 majority; balance of counties will not change or vary the result. Republican gain over the October election 151.

Portage county gives a Republican maj. of 1200.

Cleveland city and seven townships give 2383 Republican majority.

Twelve townships to hear from.

Loraine county complete, 2300 majority for Lincoln over Douglas.

Morrow county, Lincoln maj 3,000.

Illinois.

CHICAGO, Nov. 6—Midnight.

Returns received up to midnight show Republican gains. They claim Legislature and State by fifteen thousand majority.—Nothing of consequence received from Egypt. Republicans elect congressmen in four northern districts.

Chicago—Lincoln's official maj. in this city is 3692; a gain of over 2000 since '58.

Indiana.

LAPORTE, Ind., Nov. 6—9 P. M.

Lincoln, 937; Douglas, 589; Breckinridge, 95; Bell 17.

Noble township, Laporte County, Lincoln 176, Breckinridge 84, Douglas 10.

Noble county, 6 towns, Lincoln's maj 180. Gain over Lane 76.

St. Joseph county, 900 Lincoln maj—Gain over Oct. 180.

Elkhart county, maj for Lincoln. Gain of 100.

Michigan.

Marshal city, 47 maj for Lincoln.

Holley, rep., gain from 60 to 70.

Royal Oak, rep., gain 60

Ypsilanti city, rep., maj 39.

Detroit city, Granger, rep., for Congress 200 to 300 maj in the city.

Lenawee Co.—Adrian city, 266 maj for Lincoln. Republican gain of 133 over the vote of '58.

Cook Co.—44 maj for Lincoln in town of Lake.

Branch Co.—Coldwater, 300 maj for Lincoln, a gain of 140 over '58.

Five townships in Branch Co. give 588 maj for Lincoln.

Detroit city gives the Republican ticket about 400 maj. Republican gain of 700 over Fremont's vote.

Meagre returns from the interior of the State show large Republican gains over the vote of '56. Four Republican Congressmen are undoubtedly elected.

Iowa.

CHICAGO, Nov. 6—12 P. M.

IOWA.—There being but eight telegraph offices, State returns come in slowly. Those received show republican gains, and indicate the success of that ticket. In Dubuque city Douglas's maj is 83. Republican gain 400.

Minnesota.

Winona county, Lincoln's maj. in the city of Winona is 126—Rep. gain of 135. The county will give Lincoln about 500 maj.—Legislative and county tickets about the same. Breckinridge, 18 votes.

Wabasshaw county, Lake City 79 majority for Lincoln.

Dacotah county, City of Hastings, Lincoln 234; Douglas 210; Breckinridge 16—Rep. loss 2.

Town of Hampden, Douglas 53; Lincoln 51.

Goodhue county, town of Red Wing, Lincoln 112 maj.

Goodhue county gives 500 Rep. maj.

Marion county, 5 towns, Lincoln 2 maj.

Virginia.

RICHMOND, Nov. 6—12 M.

Bell & Everett 1747; Breckinridge 824; Douglas 402.

LYNCHBURG, Nov. 6—12 M

Bell 600; Breckinridge 350; Douglas 88.

BALTIMORE, Nov. 6—9 P. M.

The *American* has a special despatch from Virginia reporting large gains for the Bell & Everett men. The Bell men of Baltimore are sanguine of a good majority.

WHEELING CITY, Nov. 6—9 P. M.

Bell 926; Breckinridge 649; Douglas 637; Lincoln 600. Largest vote ever polled.

Alexandria city gives Bell 908; Breckinridge 517; Douglas 136; Lincoln 2.

Fredericksburgh gives Bell 358; Breckinridge 232.

Alexandria, town and county, gives Bell 106; Breckinridge 583; Douglas 139; Lincoln 16.

Petersburg—Bell 970; Douglas 613; Breckinridge 223.

Norfolk—Bell 936; Breckinridge 436; Douglas 230.

Portsmouth—Bell 673; Breckinridge 559; Douglas 210; Lincoln 4

RICHMOND, Va., Nov. 7—2 A. M.

Scattering returns from Southern Virginia show very large gains for Bell, indicating that that ticket has carried the State.

North Carolina.

Wilmington, partial returns from the city and county show uniform gains for Breckinridge. Brayley gives Bell 231 maj. The State probably gone for Breckinridge.

Louisiana.

NEW ORLEANS, Nov. 6—9 P. M.

The election passed off quietly, but result not yet known.

Private despatches say Louisiana has gone Breckinridge.

Returns from Southern points below Tennessee, show Douglas' vote quite feeble.

States south of Tennessee line all gone for Breckinridge.

Kentucky.

LOUISVILLE, Nov 7—3 A. M.

Bell and Douglas men give Kentucky to Bell. The returns are too limited to form any reliable estimate. Louisville city gives Bell 3823, Douglas 2633, Breckinridge 859, incoln about 11

Delaware.

Wilmington City gives 200 Republican majority. The State has gone for Breckinridge by 1500 maj. The fifth Dist. gives a plurality for Lincoln. Fisher, Republican, has 43 maj.

Missouri

St. Louis city, Lincoln, 8962; Douglas, 8177; Bell 4192.

Scattering returns from the interior of the State indicate that Douglas has carried the State.

Maryland.

BALTIMORE, Nov. 6—9 P. M.

The returns indicate that Breckinridge has carried the city. The vote is close.

This city complete gives Breckinridge 14,852, Bell 13,618; Douglas 1,662; Lincoln 1,092. The Union men claim the State by not less than 2,000 maj.

Baltimore—Returns from the interior counties show considerable gains for the Bell ticket; but these, as far as received, are not sufficient to overcome the heavy Breckinridge maj in the city. The result is therefore doubtful.

Interesting from Delaware.

Correspondence of the N. Y. Tribune.

WILMINGTON, Del., Oct. 29, 1860.

The census of Delaware indicates that negro slavery is on the decline. In 1850, the slaves numbered 2,289. To-day we have 1,805, dispersed as follows: In New-Castle county, 254; in Kent, 208; in Sussex, 1,343. Only four slaves are held in this city, and they are too old or well cared for to run away. The number of slave-owners in the State is 815. Of these, New-Castle has 92; Kent, 89; Sussex, 443.

THE SENTINEL.

DAILY, TRI-WEEKLY & WEEKLY

RUFUS KING, EDITOR.

WEDNESDAY MORNING, NOV. 7, 1860.

PROCLAMATION.

THANKSGIVING.

It is right that all Christian nations should praise the Ruler of the Universe for His wonderful goodness to the children of men.

It is eminently proper that the people of this country should praise Him, for they are favored above all others, in their form of government, devised, under God, by the wisdom of their forefathers—in freedom to do all things that are right—in health, peace, prosperity—in a wonderful process of development which has already placed them in the foremost rank of the nations of the world.

The people of Wisconsin have extraordinary reasons for thankfulness the present year. The peaceful labors of the husbandmen have been blessed in a most remarkable degree, and their barns and storehouses are overflowing with the abundance of the harvest.—Surely, "He findeth them with the finest of the wheat." Health has prevailed throughout our borders. Good order has *everywhere* reigned. The blessings of free education have been extended. All classes and professions have pursued their avocations with greater or less measure of success, under the protection of just and equal laws. If afflictions have come upon, or calamities overtaken us, the benign influences of Christian benevolence have hastened to dry the tears and minister to the wants of the bereaved.

Following time-honored custom, it is my privilege again to invite the people of Wisconsin to the observance of their annual festival of joy and gladness, and I do hereby appoint THURSDAY, the 29th day of November, 1860, as a day of THANKSGIVING and praise to the Almighty Ruler of the Universe.

And I recommend that the people of the State, on that day, laying aside the cares of life, gather together in their solemn assemblies, and, in manner and form approved by their consciences, return their thanks to God for His great goodness to us as citizens of a country blest, beyond others, with civil and religious Liberty, Educational Institutions, Peace and Prosperity; and especially for His ever flowing blessings to the people of this Commonwealth, in Abundant Harvests, Health, Social Comforts and Privileges, and for all that contributes to their happiness and well-being as communities and individuals.

"Enter into His gates with thanksgiving, and into His courts with praise; be thankful unto him and bless His name."

When the feast is spread, and the tables groan with fatness, let not the poor be forgotten, nor any man found begging bread.

In witness whereof, I have hereunto subscribed my name, and caused the great seal of the State to be affixed.

Done at Madison, the 29th day of October, A. D. 1860.

By the Governor, ALEX. W. RANDALL.

EDWARD ILLSLEY, Asst. Sec'y of State.

The Baltimore Wide Awakes.

The Wide Awakes of Baltimore have carried through their resolute determination to have a parade in that city. Threatened with mob violence, followed by a frantic crowd of bigoted men and boys, they appealed to the majesty of the law and asserted the right of freedom of opinion. It required some courage to don the Wide Awake uniform and torch in the streets of Baltimore, and we have the more sympathy with the men who did it because they are our old allies in Americanism, who, disgusted with the Fusion dickers in the North, have made up their minds to act with the Republican organization.

The procession numbered 200 torches. During the march it was greeted with hissing and yells of hate, and occasionally a brick, but the noble police force of Baltimore did its duty and protected the line, until just as the procession was about to enter the Front Street Theatre, a rush was made and quite a number of men injured. The scene within the Theatre is thus described:

"After the Wide Awakes and their Republican allies, amid great excitement and the terrible commotion caused by the immense crowd of spectators and turbulent boys outside, got inside of the Theatre, the others rushed in, filling the Theatre to suffocation. There was a determination on the part of the spectators to break up the meeting.

Finally order, being partially restored Col. Wm. E. Cole, Chairman, came forward and attempted to call the meeting to order. Immediately groans, hisses and howlings echoed throughout the building. A slight interval of partial quiet finally ensued, when President Cole again endeavored to call to order and announce the object of the meeting, the names of the speakers, &c.

At last Rev. Col. French S. Evans, editor of the *Patriot*, got the floor to make a speech He was greeted with awful howling and hissing, and with cries of "You old hypocritical nigger worshipper!" &c. He commenced speaking, and at the end of every half sentence, shouts, yells, hisses and howlings drowned his voice. He courageously persisted, and endeavored in a loud voice to make himself heard, but he encountered a perfect bedlam. The infernal regions could not have exhibited a greater scene of confusion, and amid it he was compelled to desist.

At this point the confusion reached a higher point, and it was determined to clear the theatre of all but the Republicans. Police officers, numbering nearly two hundred, under the command of Marshal Kane, were put to work, and after half an hour the entire building was disgorged of the turbulent spirits. They congregated in the street and on the pavements outside, continuing to groan, hiss and howl, whilst quiet was restored inside, leaving, however, but few to participate.

E. Joy Morris, of Philadelphia, now made a brief speech and was uninterrupted. Another person, name not mentioned, spoke briefly, and was followed by Dr. Weiss, a German, who said a few words. Things now looked dispiriting and dreary, when Col. Cole announced a motion to adjourn, which, at 11 o'clock, was carried, and the meeting adjourned.

About the time the adjournment was made known amongst the outsiders, there were several rushes of the crowd to meet the Republicans coming out, but they were, amid a strong police force, enabled to make their exit unmolested.

A few bricks and missiles were thrown at the procession of Wide Awakes as they passed through the streets. And some of them, as also a few spectators, were hit but not seriously hurt. One or two police officers were slightly, though accidentally injured. About a dozen of the offenders were arrested."

We regard this little history as eventful. The ice is broken. Four years ago such an assertion of freedom-loving sentiment in Baltimore would have been suicidal. Now it is successfully carried out and with numbers sufficient to give power and influence to the proceeding. The right of free-speech tends southward, and with every step of its march the Republican party is nationalized, while its flag floats all the higher.

THE entire population of the City of Brooklyn is 273,425, which shows an increase of about 68,000 in five years.

Steel Plated War Vessels.

The English and French Governments are making extraordinary exertions as respects their navies. The latest invention is steel plated men-of-war of great size and power. The English built five or six during the Crimean war; but they were not very large, nor had the most improved construction.—They are now building four of large size, the two largest being over 6,000 tons. They are 300 feet long each, and are armed with Armstrong guns. They have since laid down others, not less than 400 feet long, and of proportionate breadth of beam.—These vessels are propelled by engines of great power, and are contracted to run sixteen knots per hour.

The French on their side are building a number of these vessels, not quite so large or powerful as those of the British, but still very formidable ships. One lately launched, called *La Gooire*, is represented as a splendid vessel and of great speed. These vessels, it is calculated, would destroy an ordinary man-of-war at one broadside, while they would be themselves entirely ball proof.—The ARMSTRONG guns were only able to penetrate the steel plates of these vessels at short range, and after repeated shots in the same spots. But in actual fight, such penetration is not possible. The only way in which shot can penetrate these vessels, is through the port-holes, and with the ARMSTRONG gun, as it is a breech-loading weapon, very small port holes can be used, it not being necessary to run the gun back for the purpose of ramming home the charge.

GAS WORKS OF GREAT BRITAIN.—The *American Gas Light Journal*, published semi-monthly in New York city, contains in its last issue tables exhibiting the number, location, capital, and dividends of gas companies in Great Britain, the prices charged for gas, population of the towns where the companies are located respectively, and other facts obtained by means of circulars of that journal.

It appears from these tables that there are—

In England and Wales	820 Works.
In Scotland	141 "
In Ireland	54 "
Making a total of	1015
743 in England and Wales, representing	$70,153,673
129 in Scotland, "	4,351,600
50 in Ireland, "	2,282,755
743 Gas Works—Aggregate capital	$77,187,971
272 Works, whose capital is not reported, estimated at	13,600,000
1,015 Gas Works—Probable total capital	$90,787,937

The average capital of 743 British gas works is $103,886; while the average of American gas works is $126,000, showing nearly twenty-five per cent. in favor of the American works. But this is one proof, and a convincing one, of a serious disadvantage under which our gas companies labor, viz: the necessity of much larger capitals than the English works, while the cost of manufacture is necessarily greater. And yet, says the *Gas Light Journal*, the average cost of gas is positively less here than in Great Britain; and it is said that the quality of our gas is inferior.

The average price charged to private consumers is $1.80 per 1,000 cubic feet. From this liberal discounts are made to large consumers. These discounts range from 5 to 30 per cent.

The *Journal* finds that, taking into account the difference in the cost of coals, labor, and material, the price of gas in New York, Philadelphia, Chicago, Brooklyn, Rochester, Boston, Cincinnati and Baltimore, is as cheap, and if anything cheaper, than the average in England.

THE TEXAS "PLOT" NO PLOT AT ALL.

Authentic Contradiction of the Reported "Abolition Outrages"

In confirmation of the denials of Abolitionist conspiracies in Texas, which have reached us from other quarters, we have now the following emphatic testimony from a resident of Texas, who writes to the Louisville *Democrat*:

LAMAR Co., Texas, Sept. 1860.

Messrs. Harney, Hughes & Co: Seeing that the many rumors and reports which were circulated through our State a few months since, as to Abolition emissaries, insurrections, etc, are being published and accredited by many of the papers in the older States, I desire through the columns of your paper, to say to my friends in Kentucky and the public generally, that all such rumors are altogether unfounded.

It is true, that during the exceedingly hot and dry weather of the past summer, there were many destructive fires in the State of Texas. The town of Henderson was nearly destroyed—that of Dallas greatly damaged, and some houses burned in other towns in different parts of the State. But the origin of these fires, as far as yet ascertained, was either from the ignition of matches or some other accidental cause. I have not been able to learn of a single instance in which there was the slightest evidence that it was the work of an Abolition emissary—in fact, I don't believe there is one in the State, though there are some characters nearly as bad.

As to the report that poison had been found in the possession of negroes in various and sundry parts of the country, and in wells, &c., they are all false, as far as I have been able to learn. I have not met with a single man who knows of an authenticated instance. Yet these reports were published by all the papers in the State, and accredited by many, and the people in many parts were excited almost to desperation.—Who originated these reports, and for what purpose, are questions that have perplexed the good citizens of our State for some time past. Such reports are certainly calculated to injure the State and keep away such emigrants as desire to come. Why, then, should the people of Texas circulate and give credit to them?

It is the opinion of many of our best citizens, after mature deliberation and thorough investigation of the subject, that these reports had their origin in the minds of scheming politicians, and are a part of that great plan connected and being put into execution to "serve the Southern arm and excite the Southern mind; preparatory to precipitating the Cotton States into a revolution."

Yours, &c. P. B. D.

This is but a fair illustration of the degree of authenticity to be attached to nearly all—in fact, we believe we might safely say *all*—the reports of incendiarisms and Abolition outrages which reach us from the South. They are got up by disunionists, *fire-eaters*, and demagogues, to exasperate the Southern mind and intensify the hatred of "Black Republicanism" *everywhere*.

Amid the excitement consequent thereon, innocent and unoffending men, against whom a shadow of suspicion may happen to be directed, are seized, and, with the mere mockery of a trial, or no trial at all, hung to the nearest tree, to satisfy the popular fury, and their families driven from their homes. The confession of a negro whipped until desperation forces him to implicate some one, to escape further punishment, becomes the evidence upon which human life is sacrificed.

Do those who are guilty of these atrocious deeds suppose that the blood of these men will not cry to Heaven for vengeance, and that retribution will not, sooner or later, be visited upon them?

What reparation can the people of Texas now make to the poor minister of Christ, the Rev. Mr. Bewley, and the other ill-fated men who have just fallen victims to this lawless and infernal spirit? And when will the conservative and good men of the South raise their voices and make their influence felt in condemnation of crimes which would disgrace a nation of barbarians?—*Cincinnati Gazette.*

THE ISSUE AT THE SOUTH.—The Nashville Banner (Bell-Everett) thus states the leading issue of the Presidential election, in that quarter:

"The supporters of Breckinridge in the South say if their candidate is not elected, and Lincoln is, they will dissolve the Union. They appeal for a united South upon this issue. The Union party says if they are beaten, and Lincoln is elected, they will acquiesce, as they did in the unfortunate results of the two last Presidential elections, which placed Pierce and Buchanan in the Presidential chair—that they will only resist an unconstitutional act of the President, and then, not by secession, but by the government of the Union—by and with the Constitution and the Enforcement of the Laws. They appeal for a united South upon this issue."

IT IS SUPPOSED from a Latin inscription found in a newly discovered cave in Florida, that this country was inhabited or visited by Europeans in the eleventh century, and consequently our country was known to the people of Europe before its discovery by Columbus.

A Vindication of the Advantages of the Sewing Machine—Lock-Stitch vs. the Loop-Stitch.

MESSRS. EDITORS:—In your issue of the 24th of October, I noticed an article on the subject of the two styles of stitches, made by the Wheeler & Wilson and Grover & Baker Sewing Machines. The writer, it would seem, purposely confounds the loop-stitch with the lock; calling that made by the latter machine, the lock-stitch, and then veiling the deception under a comparison of the lock-stitch with the "shuttle-stitch."

Now the truth is, the lock-stitch and shuttle-stitch are one and the same thing; and the Grover & Baker stitch, is the *loop* or *chain-stitch*; and the application of the name lock-stitch to the latter, is to disembarrass it of the ill-favor the people show it, and to invest it with the popularity of the *lock-stitch*.

The writer is evidently in *some* sense, a mercenary in the interest of Grover & Baker and rather seeks to enhance the sale of those machines, than to give a fair and unbiased statement of the merits of the two stitches, made by these two machines. He sees in the face and eyes of facts to the contrary, that Grover & Baker's Machine, by universal judgement, is decided to be the favorite and best, and then to further strengthen his assertion, dilates largely upon the superior strength and economy of the seam made by it.

Now I do not own a machine of *any* kind, but am somewhat conversant with various patents; and since some of them have been brought so near perfection, and have become objects of so much interest to the people, I have taken no little pains to post myself up in their various mechanism and several merits. I have run all three of the leading machines, more or less, for eighteen months past, as an amateur worker; and therefore can speak understandingly of the seams and stitches they all make.

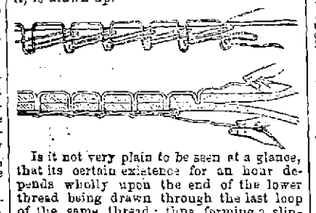
I am one of the *people*, and, therefore, my sympathies are with them; and before I go any further, I would state, that my motive in taking up this matter, is to place it before those who are to pay their money for Sewing Machines, and who are to use them, a plain statement of the merits of the stitch, made by each of the two mentioned by the writer refered to, that they may be able to judge clearly of each, and then choose for themselves. I shall say nothing of the peculiar qualities of the machines, as the stitch is the great desideratum; and I am quite content to let those interested in the profits, do the *advertising* for them. I will say this much, however, as the writer of the article refered to declares that the Grover & Baker machine is a "perfect machine," that it is open to objection on account of the work running from you; which, if it be a garment or anything large, is constantly dragged by its weight from the needle, and you have to guide it at arms length, which cannot be done, and done straightly. By reason of the work thus racing, too, you have to remove the top of the machine, and thus be deprived of its convenience to keep your tools on the table—of the use of the drawers to put your threads, needles &c in, and of the top, which, when turned back, forms a commodious shelf, on which to lay parts of your work. At the close of the seam you have to sew in a scrap of cloth as your work leaves it, or the threads become tangled and snarled and may prove the destruction of the needle. Many more equally important deficiencies, which do not embarrass the Wheeler & Wilson machines, might be mentioned; but I will not suffer them to divert my pen, lest my object in taking it up might be misconstrued.

With reference then, to the statement that the Grover & Baker stitch is, by "universal judgment," pronounced the best, let me say that if excess of patronage by the people *proves* anything, it is probably proven to the contrary in the report of Elias Howe, Jr., for 1859. (Mr. Howe is the original patentee of the sewing machine in the United States, to whom some five or six machine companies have, and now pay tribute for the use of a portion of his patent.) In that report he publishes the number of each of the three leading machines sold in that year, comparing as follows:

Wheeler & Wilson's	21,205
J. M. Singer & Co	19,650
Grover & Baker	10,250
	21,203
	72

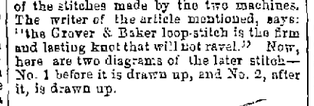
Showing Wheeler & Wilson's to have exceeded both by seventy two.

Now, this result *may be*, and no doubt *is*, to a great extent, owing to the general superiority of the Wheeler & Wilson machine; but the leading fact is, that it makes the *lock stitch*, and it may be something in its favor, too, that the stitch is made by a rotating steel hook, instead of a noisy and cumbersome shuttle. But here is the record, showing that the *lock-stitch* as made by the Wheeler & Wilson's machine is the popular stitch, and that it has been patronized by the people in the proportion of two to one of Grover & Baker's stitch; and that the above comparative statement may not be doubted for correctness, I will say that I have been credibly informed that each item has been sworn to, and commissions paid accordingly to Mr. E. Howe, Jr., by the manufacturing companies. And yet the writer of the article referred to, has the nonchalance to say the voice of the people is in praise of the stitch made by the Grover & Baker machines, of which patent, less were sold in 1859 than of the shuttle machine mentioned, and less than half as many as the Wheeler & Wilson lock-stitch machines. But lest it might be said the former have very much increased in the proportion of sales for 1860, I will state, that by enquiry, I am reliably informed that up to this date the sales of the Wheeler & Wilson machines have nearly reached the enormous number of 100,000. Their sales have, therefore, more than quadrupled in 1860, thus far; and I am farther told that the orders going in exceed the ability of the company to supply, without a marginal notice. Here, then, is *another verdict* in favor of the *lock-stitch*. But let me speak more particularly of the qualities of the stitches made by the two machines. The writer of the article mentioned, says: "the Grover & Baker loop-stitch is the firm and lasting knot that will not ravel." Now, here are two diagrams of the later stitch—No. 1 before it is drawn up, and No. 2, after it, is drawn up.



Is it not very plain to be seen at a glance, that its certain existence for an hour depends wholly upon the end of the lower thread being drawn through the last loop of the same thread; thus forming a slip-knot; and that, if this be *not* done, a sliver, or nail, or anything catching the thread and breaking it, would ravel the whole seam as you would tear a piece of tarleton? If it break anywhere in the seam, there is *not*, and *cannot* be, a slip-knot there to save it, and it must be destroyed. I will mention an instance which a gentleman told me some under his own observation a few days ago, which may better serve to illustrate this statement. He was holding a casual conversation with an acquaintance, who, by chance, observed, as he supposed, a loose thread upon his coat, and took hold of it to pick it off, and, to his astonishment, ripped the seam from the top of the lapel to the bottom.

Examples are numerous, from the testimony of thousands who have worn garments of any kind, sewed with the loop-stitch.—And the aforesaid writer further states, that, instead of being wasteful in the use of thread it is *economical* when compared with the lock-stitch. Now, here is a diagram of the lock-stitch; compare it, reader, with that of the loop, and see if you can come to the above wise conclusion. This, you see, is alike on both sides, and locks in the centre, rendering which over side you please of the fabric sewed, the right side.



The stitch is particularly preferable in hemming, for the right side of every hem is just the side on which the ridge of the loop stitch comes.

The upper thread of the loop stitch, is the same as the lock, but the *under* one, you will perceive, is composed of *three* threads, instead of one, as in the lock stitch; and requires in addition, a longer loop from the upper thread, to pass around these three, than if there were but one. So you readily see that it would consume more than three times as much material, and if you are using heavy silk to any extent, the difference in a year, would pay for a good machine.

He lays much stress upon the excessive strength and elasticity of the loop, over the the lock stitch.

Now go back to the diagrams, and compare the one with the other. Will it require any metaphysical reasoning to convince you, that the upper thread of the loop stitch, has to strain on *three* threads, on the under side of the fabric, which form a stiff and unyealding cord, and therefore cannot possess any elasticity in that direction? Longitudinal strain, too, on the lower thread, has to overcome the resistance of *three* threads, instead of *one*, and, consequently, elasticity cannot be claimed as a characteristic of the lower seam.

But it may be argued that this statement goes to establish strength of seam; but if that were conceded, (which is not,) it cannot be anything in favor of a seam (more especially, if it involves so many objections to make it so,) to say it is stronger than the fabric held by it; for in such case, a heavy strain would sunder the cloth, (which is certainly objectionable) instead of breaking the seam, which, later could be readily repaired. A seam should be made to possess strength, by proportioning the thread to the cloth, and not by a triple thread to every stitch.

But to say no more of the above assumed merits of the inimitable loop-stich, let us consider its appearance and reliability, on fine and elaborately wrought garments. For example, on lawns, muslins and cambrics, it makes a ridge or cord, that is anything but pretty or tasteful. In this department of sewing, the ridge is sought to be overcome, by using a dangerously fine thread, which is largely disproportioned to the upper, and which possesses but little less liability to *fray*, than *floss*. And if by your endeavor to reduce this defacement, you invest it with fraiiness, and by any slight accident, it become broken, a bush or a splinter, or a fence, or any slight cause, may ravel it; and your handkerchief is robbed of its hem; or your shirt-bosom is unstitched; or your beautiful tucked shirt, which cost you three or four hard days labor, to say nothing of the material wasted in its accomplishment, is marred, and what once were tucks, now hang in punctured festoons, and call for a reapplication of your energies; and this, too, under no guarantee that it will not happen again. In the seams of pants, and all woolen goods, where the seams have to be pressed flat, all tailors which I have conversed with upon the subject, coupled with my own experience, agree that it cannot be satisfactorily done.

This ridge, too, swells when dampened, and puckers, and when strained to bring it to its place again, the thread snaps, while in the lock-stitch, the upper and lower threads, swell and shrink alike, when at all. But I need not point out all the good qualities of the lock-stitch. Any person can see them by comparing the diagrams, assisted by the suggestions here thrown out.

I might, however, multiply the objections to the loop-stitch, beyond the number I have; but as I have only taken up this matter to put the people on the alert, against purchasing any machine, the stitch of which, will disappoint them, and to point out some of the defects of the loop-stitch, I feel that I have done my duty, and that was the end contemplated, when I seated myself to indite this.

In conclusion let me add, that the weight of favor is further proven with the lock-stitch, in the decisions given by the committees, at the different United States, State and County Fairs and Mechanical Institutes throughout the United States within the last three or four years, and more especially this last fall. They have placed the Wheeler & Wilson machine in the foreground of the sewing machine market, and given it a character no other machine can invade. I freely confess I am in favor of the above machine and my preference is based upon thorough investigation. I give it precedence for its ability to perform perfectly in every branch of sewing, for its concise and beautiful stitch, its rapidity of motion, its accuracy at a speed of one thousand stitches per minute, mechanical simplicity, ease of propulsion, quietness of action, and many other advantages which I will not stop to mention.

I give the result of my experience to the public, which is deduced from trials on the three machines named here, augmented by the coincidence of the people, as verified in the unbiased statement of Mr. Howe. His statements must be untrameled by any self interest for it is immaterial to him, which company sells the most machines, so long as he gets his tariff on all that are sold, of whatever kind.

As one of the people, these remarks are submitted by an

THE PRESS ON THOMSON'S EATING HOUSE.

THE POPULAR EATING HOUSE, AND is the best known one all over the State of Thomson's, at Hartford, on the La Crosse Railroad. We don't know where a better lunch can be had or a better dinner—but a dinner—and Thomson's dinner is worth more to look at, in these given times, than a week's board at an ordinary hotel.—*Green Bay Advocate.*

☞ We are informed that travelers on the railroads between the Minnesota and Mississippi rivers express themselves in the highest terms of delight at Thomson's "Hartford Coffee House," and well they may be. Thomson is one of nature's noblemen, who delights to be known and the best way to know him is to stop and try his viands. He generally keeps the best, as the North-West will testify.—*Hokendauqua Sentinel.*

HARTFORD COFFEE HOUSE.—People traveling between the Milwaukee & Minnesota R. R. who neglect to stop into Thomson's Coffee House at Hartford, and get a biscuit, a couple of regular "shanghai" eggs, a doughnut and piece of pie, lose a great deal more than the "quarter" they have to pay for all these eatables. Thomson keeps everything in nice order and is always glad to see his friends.—*Portage City Record.*

THOMSON'S EATING HOUSE, HARTFORD.—The traveler, on the Milwaukee & Minnesota Railroad, that "must stop" for breakfast or dinner when one is going to Milwaukee. We tried it one day last week, and, as a matter of course, we were treated to the choicest of the season, and a good warm dinner, all in short, the warm biscuits, the fried oysters, the eggs, the potatoes, the butter, the pies, the coffee and all the other nice things couldn't be beat in this state or anywhere else. Thomson keeps the best on the American Union—and only for the trifling sum of seven fly cents."—*Daily Wisconsin.*

THE HARTFORD COFFEE HOUSE.—We have always noticed that travelers on the Milwaukee & Minnesota railroad are anxious for the train upon which they are riding to arrive at Hartford Junction. The reason is now plainly revealed to us, since we have experienced that the passengers dine at Thomson's, where their fragrant beverage can be obtained in all its strength, richness and aromatic flavor, together with such savory edibles as Thomson and his good wife know well how to do the thing up, and always succeeds in pleasing his customers. Some the reason he enjoys a large share of public favor.—*Milwaukee News.*

THOMSON'S EATING HOUSE.—At Hartford, on the La Crosse and Milwaukee R. R. you will find the best natured, broadest faced, loudest laughing, best feeling, coolest talking man in the business. His house is situated in a pleasant grove, and the table is bended with fruits, and doughnuts, and clear coffee, and delicious biscuit, and eggs in the luxuriant persuasion. His fare for all a man can eat is but two shillings, and he who calleth not at Thomson's knoweth not how to enjoy the life, or to enjoy the luxuries of this world.—*La Crosse Union & Democrat.*

Special Notices.

American Watches,
MADE BY THE
AMERICAN WATCH COMPANY,
AT WALTHAM, MASS.

Attention is invited to the following statement and the accompanying letters of recommendation and testimonials, in favor of these celebrated Watches.

A gold medal was awarded the Company by the American Institute at New York in 1857.

The Company also received the first premium—a gold medal from the Franklin Institute, Philadelphia, in 1858.

These Watches have now been in market for nearly ten years, during which time they have been tested as to accuracy, durability, and reliability in every conceivable manner, and have proved themselves to be the most satisfactory time-pieces ever offered to the public.

This result has been brought about by a strict application of mechanical science to the construction of the Watch from its very inception, rendering it when finished, mathematically correct in all its proportions, and necessarily as perfect a time-keeper as it is possible to make.

The Company have tested their Watches in many instances, by actual daily noting, and the result of this test has been that they have exhibited a rate equal in regularity to the best marine chronometer.

From the Prairie Farmer, Oct. 1860.

AMERICAN WATCHES.—Nearly a year ago, were received from Messrs. Robbins & Appleton, General Agents of the American Watch Company, and *paid for* a good looking watch, "warranted," with the request that after thorough trial we should say what we thought of it, editorially. It has been our constant companion nearly a year. We have had no fault to find with the way it has ticked the time. *We do not want a better timepiece* than this has proved to be thus far. Once regulated (and we regulated it ourself) it has scarcely varied a half minute a month from "transit time." Added to its quality as a good time keeper, it is honestly and substantially made. Were we going to purchase, we should *prefer* an American watch.

Office of the Tribune,
New York, Oct. 27, 1859.

American Watch Company, Waltham.

Gentlemen.—Having carried one of your watches for the last eight years, I can say confidently that they will do, and may be bought with assurance that they will keep time. I believe the watch unsurpassed.

HORACE GREELEY.

New York, Aug. 2, 1860.

Gentlemen.—In reply to yours of 25th ultimo, we take pleasure in stating that the American watch now in use upon our railroad, has varied only six seconds, in a little over six months.

Respectfully,
S. W. & W. A. TORREY,
Contractors on the Har. and Del. Bay R. R.

To Messrs. Robbins & Appleton.

Boston, Sept. 27, 1859.

Mr. R. E. Robbins, Treasurer Amer. Watch Co.:

Dear Sir—It gives me great pleasure to comply with your request for a report of the performance of the American Watch I purchased of you Dec. 2, 1858. It was set on that day, and the variation from true time to the 20th of February, 1859, when I left it run down, was ten second fast. From that time to the present, it has run with nearly perfect steadiness, having during the eight months remained at from seven to nine seconds fast, and this with uncommonly rough usage. I can commend your manufacture in the highest terms.

Yours truly,
JAMES H. CLAPP,
Firm of Clapp, Fuller & Brown, Bankers, Boston.

The following named gentlemen may be referred to in relation to these Watches:

Hon. Hannibal Hamlin, Me.; Hon. John G. Saxe, Vermont;
N. P. Willis, New York; Hon. N. P. Banks, Mass.
Horace Greeley; Frank Leslie;
Cyrus W. Field, New York; Wm. H. Cary, N. Y.;
Paul Morphy, New Orleans; Norman Ward, Wis;
Dr. J. Marion Sims; Prof. Bartlett, West Pt.;
Lieut. H. A. Wise, U. S. N.; Col. W. J. Hardee, U. S. A.;
R. I. Prime, D. D., Wh't Plns; Wilson G. Hunt, N. Y.;
Gen. G. P. Morris, N. York; Peter Cooper, N. York.

CAUTION.—As our Watch is now extensively counterfeited by foreign manufacturers, we have to inform the public that no watch is of our production which is unaccompanied by a certificate of genuineness, bearing the number of the watch, and signed by our Treasurer, R. E. Robbins, or by our predecessor, Appleton, Tracy & Co.

As these watches are for sale by jewelers generally throughout the Union, the American Watch Company do not solicit orders for single watches.

Strange Romance.

From the St. Louis Bulletin of the 25th ult.

We have been placed in possession of the outlines of a strange story, which has almost too much Munchausen about it to seem true, yet we are informed it is substantially correct. In the summer of 1853 John Hardwick, a poor mechanic of Pittsburg, was induced by the gold excitement then raging to try his luck in the mines of California.—He accordingly left his wife and two children behind, and took passage around the Horn for the El Dorado. On arriving there his money had given out, and he was obliged to go to work at a mere pittance to keep from starving. He made his way however as fast as he could, and having entered into partnership with another man, commenced the working of a claim. Hardwick prospered, and began to think that at the end of the year he would be able to go home with a large pile of dust. Human calculations are sometimes wrong. Mr. Hardwick's calculations were wrong—for he was taken sick and came near death's door.

When he got well his partner had departed, and taken with him the earnings of both. The poor man was almost discouraged. He had been away from home eighteen months, and had sent nothing back to his family.—He wrote to his wife, giving her a true statement of his condition. She never received the letter, and consequently he never received any letters from her. Hardwick went to work again, but the times grew hard, and he earned but little. He frequently wrote to his wife, but she, strange to say, never received a single line from him. It is needless to go through every particular of his history—suffice it to say, that hearing nothing from his wife he concluded that she was glad to get rid of him, and would not trouble herself to write to him. He determined to stay in California till he was rich, and then return to the Atlantic States. He set himself to work assiduously, and made money. His business relations were such after a few years, that he could not leave California, but stayed and accumulated a handsome fortune.

In the meantime, Mrs. Hardwick, thinking her husband was dead, after three years, married another and emigrated to St. Louis. Her name became Mathews. Her two children, of whom John Hardwick was father, died, and all traces of John were obliterated except from a very remote corner of her heart. Mrs. Mathews was a good wife to her second husband, so far as we can learn, and bore him two children. Mathews was in the grocery trade, and throve well, but about a year ago he was taken sick with a fever and died, leaving Mrs. Mathews and the children without a protector, as she thought, but with a snug income.

John Hardwick, tired of California life, and tired of business also, collected together his effects, which amounted to a nice fortune, and started for home by the overland route. He arrived in this city two weeks ago, and remained a few days to rest before taking the cars for Pittsburgh.

One morning, while walking through Broadway market, Mr. Harkwick saw a familiar face. It was the first familiar face he had seen since he had left San Francisco—and that face belonged to a woman. He quickened his pace, and came up to a stall where the lady was about to purchase a breakfast. Mr. Hardwick's heart beat wildly beneath his waistcoat. Could it be possible? "What should Jane be doing in St Louis?" thought he. He was about to turn away, when the lady turned her head, and their eyes met. "John Hardwick, as sure as I am living!" exclaimed she. "Jane, is it you?" said John. It proved to be both of them, and after mutual explanations, Mr. Hardwick accompanied the lady home, carrying her market basket for her.

Two children met them at the door.—They were blue-eyed and rosy cheeked—just like those John had left behind, and just as large—but they did not have features like John's. "What matters it," thought our hero—"my two children are dead and these are sent to take their places—I will be father to them." Mr. John Hardwick was as good as his word. He helped Mrs. Mathews—formerly Mrs. Hardwick, and destined to be again—to dispose of her property; then calling a clergyman, they had the matrimonial link tied again strong and fast. In two days they started for the East, where, we hope, in Pittsburgh or some other delightful town, they are enjoying, at the meridian of life, another honeymoon as pleasant as the first.

REPUBLICS NOT UNGRATEFUL.—The year in which Mount Vernon became the property of the Union by the efforts of the American women was consummated by the purchase of the Grutli by the school children of Switzerland, at a cost of $11,000. The Grutli, near Aldorf, and the birthplace of Tell, is the spot where, in the fourteenth century, three brave men entered into a secret combination to rid the country of its oppressors, a movement which was soon extended to the other cantons. The sale of this place, dear to every Swiss, was concluded on the one hundredth birthday of Schiller.

THE new steam fire department of Boston is now fully organized, and not a single hand engine is now used in the city. Under the old system, six hundred men were employed, and now there are only two hundred and fifty. It is estimated the annual expense will be decreased $30,000.

ONE of the ladies who danced with the Prince at Boston, asked him if "the portraits we have resemble your royal mother?" Another asked him "how his royal mother was?" He was amused, and to the first lady replied that he did not know; to the second he said his mother was "as well as could be expected."

POETRY A CAPITAL OFFENCE!—It is thus related in Scottish Annals: "In 1579, an act was passed against idle beggars and sin as make themselves fools and bards." And the Annals go on to register: "Two Poets hanged in August, under Act of parliament against bards and minstrels."

ARITHMETICAL PUZZLE.—If four dogs, with sixteen legs, can catch twenty-nine rabbits, with eighty-seven legs, in forty-four minutes, how many legs must the same rabbits have to get away from eight dogs, with thirty-two legs, in seventeen minutes and a half?

Boots and Shoes,
60 LAKE STREET, CHICAGO 60.

WE OWN THE EXCLUSIVE RIGHT for the sale of *MITCHELL'S PATENT METALLIC TIPPED BOOTS AND SHOES*, for and within the States of Wisconsin, Iowa and Minnesota, and hereby give notice that all parties dealing in these goods within the above States, without having first arranged with us and by our consent, are and will be illegal infringers upon our EXCLUSIVE rights, and that as soon as we are advised of any infringement, shall demand proper remedy for redress.

We have made extensive arrangements with the most celebrated manufacturers, whereby we can fully supply the increasing demand with the best qualities of these Tipped Boots and Shoes from our stock in Milwaukee, each pair of which will be stamped and labeled with our name.

We shall recognize no Tipped goods within either the above States, but such as are duly stamped and supplied by us.

We will warrant in all instances one pair of child's copper-tipped shoes to outwear two and oftentimes three or four pairs of equal quality without tips, as can be shown by very many testimonials, while the expense is but a trifle more, making an actual average saving to the consumer of near two hundred per cent.

Merchants and dealers in Boots and Shoes within the above States, can also find these Metallic Tipped Boots and Shoes, supplied and properly stamped at Wadsworth & Wells' store for sale by ATKINS, PARK & WHITE, and BRADLEY & METCALF, Milwaukee.

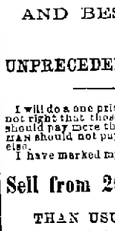
SOYER'S SULTANA'S SAUCE.
For Hot and Cold Dishes of all Kinds


THIS MOST DELICIOUS and appetising Sauce, invented by the renowned "SOYER," for the London Reform Club, is, since his decease, manufactured by the well known House of CROSSE & BLACKWELL, London, from the original receipts in his favorite handwriting, and is used and sold on the Continent, with a high and growing reputation among American Epicures, and is much approved of and stimulant to the appetite and digestion.

Opinions of the London Press.

"We recommend our correspondent to try MOSS, Soyer's new Sauce, entitled the 'Sultana's Sauce.' It is made after the Turkish receipt, its flavor is excellent, and it affords considerable aid to cases of SLOW AND WEAK DIGESTION."—*The Lancet.*

"Sweet, piquant and spicy, worthy the genius of Soyer."—*Observer.*

A most valuable adjunct to Fish, Flesh and Fowl, and should have a place on every table."—*Atlas.*

Pure Ohio Catawba Brandy!
THE UNDESSIGNED HAS BEEN DULY appointed the only and sole agent for this
PURE MEDICINAL BRANDY
For the City of Milwaukee. This Brandy has been analyzed by Prof. Wood, the N. Y. State Assayer, Dr. A. A. Hayes, Chemist, and Prof. Upman, Shepard, Chat. Rowe, S. C.; Prof. Dr. Hutton, New York; Prof. Silliman, New Haven; Prof. Emmett, J. A. Nichols, of Boston; and Dr. Cox, of Cincinnati, and pronounced by them to be a pure grape juice, and an excellent stimulant in all cases where pure Brandies are indicated.
The manufacturer of this fine Brandy guarantees *(for a term of years)* that it will cure
CHOLERA INFANTUM,
SUMMER COMPLAINT WITH CHILDREN,
DIARRHŒA,
BOWEL COMPLAINT,
DYSENTERY,
DEBILITY,
CHILL,
LANGUOR,
LOW SPIRITS,
GENERAL DEBILITY AND NERVOUSNESS.
Pure Brandy is now prescribed in the place of Paregoric—not "boxing" the *deadening* effect of that medicine upon the brain.
The wife, child, family, town or village in the State are invited to apply to the undersigned, who will give them a bottle free of charge, to try before purchasing.
Three or four drops in sweetened water, and repeated if found in two tablespoonfuls of cold water, and repeated every five minutes until relief is effected.
Adults and children in proportion.
The wine of pure Medical Brandy has long been felt in this country.
The properties contained in this Brandy are more concentrated than French Brandies. This the manufacturer claims are its merits, and challenge the world to disprove the same.

TELEGRAPH!

REPORTED BY THE N. Y. ASSOCIATED PRESS FOR THE DAILY SENTINEL.

Later from New Mexico.

INDEPENDENCE, Nov. 6—3 P. M.

The New Mexican mail, with dates to the 22d, arrived yesterday.

Col. Conby had an engagement with the Navajoe Indians on the 2d ult., and 40 horses and 500 sheep were captured, with 5 prisoners. Six Indians were killed.

The Utahs, under Gen. Pfeiffer, captured 5,000 sheep, a large number of horses, 19 prisoners, and 5 scalps.

Capt. Buckman's party of volunteers took 70 horses and 1 sealp.

The Indians are sorely pressed on all sides, and if not properly chastised now, they never will be.

The Utahs proved treacherous. After receiving a large number of horses, they put out with them, declining to have anything more to do with the company.

By their treachery the Indians recovered three thousand of the mutton that were taken from them, and the command of Capt. Pfeiffer was in imminent danger, but after a hard battle he escaped.

Business in Santa Fe is very dull. Flour is selling at $16 per sack, and was very scarce.

The weather was very cold on the plains.

Fire in Natick, Mass.

BOSTON, Nov. 6—3 P. M.

A fire in Natick this morning, destroyed the shoe factories of Walcott & Co., and Crosby & Nichols, and also the store of Wm. H. Wright, with most of the contents. The Post Office was in one of the buildings.—Loss $50,000—mostly insured.

There was a heavy rain here this morning but it has cleared up, and the voting is going on briskly. There is a good deal of excitement.

Extra Pony Express.

FT. KEARNEY, Nov. 6.

The Pony Express Company have decided to start an extra pony from this point for California, Wednesday, 7th, carrying election news and private telegrams. It is expected that this pony will make very quick time. The C. O. C. & B. P. Express coach with mails and full load of passengers from Denver, passed here at 2 P. M., Sunday, for St. Joseph.

Southern Presentiment.

NEW YORK, Nov. 6—3 P. M.

The *Times'* Washington correspondent says that at the special request of a number of the prominent citizens of Georgia, the government has placed the arsenal at Augusta, in possession of federal troops, and also that the arsenal at Fayetteville, N. C., is to be occupied by a company of cavalry.

New Counterfeit.

PHILADELPHIA, Nov. 6—3 P. M.

Peterson's Detector cautions the public to refuse 5s on the Western Bank of Philadelphia. Over $5,000 in spurious bills have been discovered. The notes are well engraved, and are a good imitation of the genuine.

Military Intelligence.

NEW YORK, Nov. 6—3 P. M.

The *World's* Washington correspondent says that Gen Harney left to assume the command of the Department West. In consequence of an anonymous letter threatening insurrection in Virginia, Gov. Letcher has ordered troops to be ready to move at a moment's notice.

Regatta Match.

POUGHKEEPSIE, Nov. 5—3 P. M.

The Regatta match for $500, between Mr. Ward, of Newburg, and Mr. Berger, Poughkeepsie, was won by Ward, doing ten miles in 83 minutes.

LATEST NEWS!

BY LAST NIGHT'S REPORT

Destructive Fire at Columbus, Ohio.

COLUMBUS, O., Nov. 7—3 1-2 A. M.

Last evening about eight o'clock the Neil House was discovered to be on fire in the upper story. The fire spread rapidly owing to the difficulty in getting water so high.

The house is now a mass of ruins, and the flames are spreading to the adjoining buildings. Gov. Dennison has telegraphed to the Cincinnati Fire Department for assistance. An extra train with engines will leave there at two o'clock this morning.

Burning of a U. S. Gun Boat.

NEW YORK, Nov. 6—9 P. M.

RUMOR asserts that the U. S. steam gun boat Seminole has been burned off Pernambuco. At last advices she was much over due at Rio from Norfolk. Report has already stated that a burned propeller was seen off the place mentioned.

Anthony B. Nelson, President of the Board of Underwriters, died to-day.

PHILADELPHIA, Nov. 6—9 P. M.

A large number of voters left here this morning for New York. Some Philadelphia detectives accompanied them to prevent fraudulent votes.

MONETARY.

TUESDAY P. M., Nov. 6, 1860.

Business was almost completely at a stand to-day our merchants, who are pretty much all Republicans, devoting their time to the election. As a consequence matters at the Banks were unusually quiet. We quote Exchange in fair supply, selling at 1 and buying at ¼ premium. The accumulation of currency is being called into service, but the market is still easy.

The Chicago *Tribune* of this morning reports the demand for Eastern Exchange fair, and the market steady at 1@1¼ premium. Currency in fair demand with a good supply.

NEW YORK MONEY MATTERS.

We have the following by telegraph from New York to-day, in reference to money and stocks:

The receipts of wheat to-day 5 will be soon are some 71,300 bushels and the shipments 106,000 bushels. Notwithstanding the excitement of the election a considerable quantity of wheat changed hands early in the day, holders conceding to the figures offered yesterday, and subsequently selling freely at a decline of ¾@1c. Previous to the meeting on Change about 50,000 bushels were sold at 87@88c for No. 1 Spring in store; 86@86c for No. 2, and 90@92c for Club and Extra Club; but on receipt of the steamer's news the market broke down, closing with no buyers at outside of 83c for No. 2, and 85c for No. 1. Freights were very dull and 1c lower, vessels offering freely at 13c. The only engagement reported on Change was that of the schooner *Josephens* at 12c to Buffalo. There were no transactions reported in Flour.

CHICAGO MARKET, NOVEMBER 5.

Receipts at Chicago yesterday included 3,866 bbls flour, 46,804 bus wheat, 3,445 bus corn, 733 bushels oats, 1,537 bus rye, 790 bus barley. In reference to the market the *Tribune* says:

The wheat market to-day, under the advices of the *Adriatic*, opened very firmly, but owing to the uncertainty of being able to ship through to the seaboard at anything like reasonable rates of freight, there was no material improvement. About 74,000 bus changed hands, at 86c for Northwestern Club; 84½@85c for No. 1 Spring; 81½@82c for No. 2 do; and 76c for Rejected. The flour market was firmer, and at the close a slight improvement was discernable. About 1,000 bbls changed hands at $4,35@5,5 for Spring extra, and $6,50@6,70 for Spring Superfine. The Corn market was buoyant, and prices advanced ¾@1c, with sales of No. 1 at 36@36½c in store; No. 2 at 35½@36c in store; and new corn at 31c in store. Oats were quiet and steady at 19½@20c for No. 2. Rye firm at 45c. Barley quiet. Timothy Seed was firm. Hides steady.

Freights were easier. Nine sail vessels and one propeller were engaged at 12½@13c for Wheat to Buffalo; 12½c for new corn to Buffalo; 13c for wheat to Ogdensburgh, and 16½@17c for Wheat to Oswego.

The British Corn Trade.

From the Mark Lane Express, Oct. 15.

The fine weather with which the month commenced closed on Tuesday with rain, followed by sharp frost on Thursday. The ten dry days were, however, of immense service to the country, and the bulk of corn crops, beans excepted, may now be considered as gathered. The fine drying winds recently experienced will place the later gathering foremost in the point of condition; but, without extraordinary weather for the next fortnight, there is very little chance of a dry sample of beans. Plowing where practicable, has commenced in earnest; but the sowing of wheat this autumn must be generally backward, the land being foul and wet. Very little change can be noted in the value of old and fine new wheat during the week, but soft damp new has been less in favor upon a better acquaintance. Very little can be used with old for the manufacture of flour. Prices, therefore, for such qualities have further receded and have been irregular, partly under the from their own necessities, foreign markets have generally been rather dearer for good Wheat. This has been the case in France, Belgium, Holland, and the Baltic, as well as at Odessa, the Danubian Principalities, and Southern Europe.—But in America, the immense deliveries from the West, coupled with more favorable advices from Europe, have brought about some reduction in the value of Breadstuffs.

The sales last week were 71,701 qrs wheat at 53s8d, against 124,327 qrs in 189. The London averages were 55s9d on 8,601 qrs. The arrivals into the principal ports of Great Britain for the week ending 33 of October, two wheat and flour, were equal to 151,367 qrs wheat, including 9,464 qrs colonial.

By the annexed table of quarterly imports into London we find a general large increase in foreign grain and flour—that in wheat and flour alone being equal to a quarterly increase of 123,167 qrs or nearly the entire foreign import for corn and flour into London, involving an outlay for the past quarter of about 1½ and a half millions of money, being above double the sum required in the same time last year, the leading imports then being oats.

Increase and decrease on imports and exports for the third quarter, 1860, compared with the corresponding quarter 1860.

MARINE ITEMS.

LEAKING.

The bark *St. George*, and brig *G. P. Williams* bound down from Chicago with wheat, have both put into this port leaking. *The St. George* has been here since Friday, and yesterday commenced removing a portion of her cargo. The *Williams* ran in on Sunday morning, and expected to proceed on her voyage yesterday, the leak not being serious.

THE GALE.

A gale, almost unexampled for its duration and severity, has been blowing since Saturday. The direction of the wind has been mostly W.SW., sometimes veering to a point nearly due West. Intelligence from the shipping outside is naturally looked for with anxiety.—*Detroit Tribune, of Monday evening.*

The steamships *Detroit* and *Milwaukee* report that while it has been comparatively calm on this side of the Lake, there has been an uninterrupted gale on the opposite side since Saturday night. *The Milwaukee*, due Monday night, did not arrive until yesterday morning. The *Detroit* was also delayed, but each will make the regular number of trips for the week.

PASSED DETROIT.

The following is a list of vessels that passed Detroit Saturday:

Bound up.—Steamers North Star Forester; propeller Dunkirk; brig Andes; schooners Palo Alto, Augusta, W. A. Chisholm, Hibbenian, Zephyr, Curtiss Mann, Ironsides, Margaret.

Bound Down.—Steamers Minnesota, Forest Queen; prosidiers Omar Pasha, Wenona; barks Jesse Hyer, Marquette, brigs Mary, Powhatan, John Rice, Northumberland; schooners J. G. Beard, Lilly Dacy, E. H. Brown, Challenge, Hay State, A. Rust, Belle City, Correspondent, Starlight, Hartelet.

ITEMS FROM THE DETROIT PAPERS.

COLLISION.—The schooner *W. S. Nelson* collided Friday night with the propeller *Nelson* by the latter vessel getting aground. The *Nelson* had her head-rail, bulwarks, and some stanchions carried away, which will detain her here two or three days for repairs.—*Detroit Free Press, Sunday.*

REPAIRED.—The schooner *St. Andrews* has completed her repairs at this port and took her departure last evening for Buffalo.

DAMAGED.—The brig *Andes*, while coming to at the dock foot of Bates street yesterday afternoon, got her small boat foul a dite, carrying away the bows and rendering it useless for service.

FOR LAKE SUPERIOR.—The steamers *North Star* and *Forester* took their departure for Lake Superior yesterday. The former goes directly through; the latter discharges her cargo at the Bruce Mines when she proceeds to the head of the lake. The schr *Grand Trunk*, it is expected, will tow the *Sea Bird* to this port.—*Ibid.*

THE GALE OF SUNDAY.

The wind shifted Saturday from S. E. to S. W., and yesterday blew a gale from the latter quarter during the entire day. As quite a number of vessels left the river on Saturday, we shall doubtless hear of serious if not sad results from the effects. The schooner *Augusta*, in tow of the steamer *Pearl*, left yesterday afternoon, bound down, during the height of the gale.—The brig *Northumberland*, schooners *R. B. Steele* and *St. Andrews*, were here yesterday, bound down, awaiting more favorable weather. The schr *Ironsides*, bound up light, arrived here Saturday evening, and was at anchor all day yesterday, awaiting orders, we understand.—*Detroit Advertiser, Monday morn.*

The same gale was felt here with great violence, but as the wind was in a favorable direction for downward bound vessels, a great many cleared, passing out of sight before the wind almost as soon as their sails were spread.
